Data Quality Report Template

The Data Quality Report Template will summarize data quality issues from the selected source, including severity levels and resolution plans. It will aid in systematically identifying and rectifying data discrepancies.

Data Source	Data Quality Issue	Severity	Resolution Plan
Dataset	Missing values, duplicate records, inconsistent data types, inconsistent categorical values, and unusual numerical values may affect the accuracy of analysis..	Medium	Perform data-quality checks, remove duplicate records, handle missing values, standardize categorical fields, correct data types, and validate unusual numerical values before creating Tableau visualizations.
