

Project Initialization and Planning Phase

Date	27 August 2026
Team ID	-
Project Name	Food Ordering Behaviour and Consumer Trends
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the core about - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - what do they think?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A food-ordering customer who frequently uses online food-ordering services.	Understand my food-ordering preferences and choose suitable cuisines and restaurants based on my needs	It is difficult to identify which cuisines are popular in	Food-ordering platforms provide a large number of choices, making it difficult to compare	Confused and uncertain when deciding what to order and which restaurant category provides the best value.

			different cities and which restaurant types offer better value.	ordering patterns, cuisines, prices, and restaurant categories .	
PS-2	A food-ordering customer who wants to make better decisions while ordering food online.	Compare my spending across different types of restaurants.	It is difficult to know which restaurant type has a higher average order value.	There are different restaurant categories such as Budget, Mid-range, and Premium, and their order values can vary.	Confused about which restaurant category provides better value according to my spending.
